

Memorandum

To: Nancy Ruscio, Superintendent

From: Joshua Finn, Chief Technology Officer 

Subj: OCM BOCES School Library System – Homer Pilot

Date: July 31, 2012

BOCES SLS has selected Homer to pilot a collaborative research project at the primary level. This project will be administered by Margaret Little and myself in the Elementary School. The program grants the district (10) Apple iPads with covers and protective screens on permanent loan from SLS. This pilot will prove the use of the M3 Catalog and current library resources to manage and use iPads in the classroom as an extension of the library.

This is an exciting opportunity for Homer; SLS's selection of Homer speaks to the excellent resources we can bring to bear on the pilot. I look forward to working with Margaret and SLS to see this pilot through.
