**Re: SEQR Review - HUNT Project 2503-017 2014-15 Capital Outlay - JR High /
Intermediate Building - SED #11-07-01-06-0-007-010**

Dear Ms. Ruscio:

We have reviewed the official compilation of Codes, Rules and Regulations of the State of New York, 6 NYCRR, Part 617.3, 617.4 and 617.5 which defines the classification of this project for SEQR review.

Based on the proposed scope of work (Room Lighting Replacement, Unit Ventilator Replacement and Casework Replacement), the project meets the definition of a Type II action per the attached sub-paragraph 617.5, (c), (1), (2) and (8). In addition, the total area of physical alterations of the site at each of above buildings is less than the threshold contained in sub-paragraph 617.4 (b), (6), (i).

Since the project may be considered a Type II action, no further review under the SEQR process is required. **However, to complete the SEQR process, it will be necessary for the School Board to pass a resolution determining that the project is a Type II action and thus, requires no further review under the SEQR process.** The school's attorney should review our recommendation and draft a resolution for Board action. Please send a copy of the Board resolution to me for inclusion with the SED submission.

I have attached the 6 NYCRR 617 SEQR regulation for you use. If you have any questions, please do not hesitate to call me ((607)-769-9851
Sincerely,

HUNT ENGINEERS, ARCHITECTS & LAND SURVEYORS, PC

Jeffery Robbins, RA
