

January 8, 2015

Dear Homer Board of Education,

We, Hartnett Elementary Student Council, are seeking permission to write letters for donations for the all school production in June. We would use the donations given to Student Council to purchase items for props, costumes, and technology for the production. As you may know, our productions are all inclusive for our student body in grades K-6th. In these productions, students learn different facets of theater including, acting, singing, dancing, prop support, and technology such as working the spot lights. The intent for this year's production is to make it big and the best one yet. Any donations we may receive through our letter writing efforts would be greatly appreciated and used by our student body.

Thank you for your consideration,

Hartnett Elementary Student Council
