Dear Board Members:

I am writing to inform you I am not in favor of my tax dollars funding the Truxton Charter School. From what I understand, the teachers there will not be required to be certified. Also, the building is in need of major repairs.

I don't feel Homer taxpayers should be responsible for this unnecessary expense when the small student body in Truxton

could be more than adequately educated in  
the Homer school system.

Thank you for your consideration.

Sincerely,

Dear Homer District School Board of Education:

We are writing this letter in opposition to the Truxton charter school opening.

When dealing with this matter, please take the following items into consideration:

- Homer School District is Responsible for busing the students there requiring additional busses and drivers and time
- School Taxes are going to go up to cover The additional building, staff, maintenance
- Special Education will be under budgeted and therefore not as good quality as public school
- Educational requirements are different than public school
- Teacher certification is not needed in the charter school
- Public school teachers must have masters in education and teaching certification
- Why bring a school that was closed for several valid reasons back, especially in a lesser form

Thank you for your time with this matter. We strongly hope that the charter school will not be allowed to open.

Sincerely,

Eugene Smith
