

**Homer Central School District
PROPOSED COURSE ADDITIONS/DELETIONS FORM**

Whenever a course is added or deleted, it is extremely important that the appropriate procedures are followed. This ensures all individuals concerned have input and understand the implications of the change.

The teacher or administrator desiring to add or delete a particular course should meet with the department Curriculum Area Lead Teacher (CALTs)/Director and discuss the rationale for desiring the change. All implications of the change should be discussed. Following the meeting, the teacher completes the following Proposed Course Addition/Deletion Form and presents it to the CALT/Director for his or her recommendation.

Course Title:	AP EUROPEAN HISTORY	<u>Add</u> or Delete (circle one)
Department:	SOCIAL STUDIES

Any complete understanding of today's world must take into account the meaning of Western Civilization and the role Western civilization has played in history. Despite modern progress, we still greatly reflect our religious traditions, our political systems and theories, our economic and social structures, and our cultural heritage. This edition of Western Civilization aims to assist a new generation of students in learning more about the past that has helped create them and the world in which they live. New material on world history has been added to show the impact other parts of the world have made on the West. The ongoing struggle with terrorists since 2001 has made clear the intricate relationship between the West and the rest of the world. It is important to understand not only how Western civilization has affected the rest of the world but also how it has been influenced and even defined since its beginnings by contacts with other peoples around the world. Another goal of the text is to present a well-balanced work in which the political, economic, social, religious, intellectual, cultural, and military aspects of Western civilization have been integrated into a chronologically ordered synthesis. The latest research on social history and women's history has been integrated into each chapter of the book rather than isolating it in lengthy topical chapters or in separate sections. Western Civilization aims to put the story back in history. That story is an exciting one, yet many textbooks fail to capture the imagination of their readers. Narrative history effectively transmits the knowledge of the past and is the form that best aids remembrance. At the same time, the text presents the kind of historical analysis that reveals how historians often disagree on their interpretations of the past.

With a collection of over 375 sources, each accompanied by an introductory essay and review questions, this two-volume primary source reader emphasizes the intellectual history and values of the Western tradition. Sources are grouped around important themes in European history--such as religion, education, and art and culture--so you can analyze and compare multiple documents. The ninth edition features additional sources by and about women, completely revised chapters on modern Europe and its place in the contemporary world, and updates to introductions and review questions.
