Preface for the Wild Center Grant

The Green team attended the Youth Climate Summit at the Wild Center in Tupper Lake NY in November, 2017. As part of the summit each school developed an action plan to bring back and implement with their school community. The Wild Center through their climate program supports a grant program to fund school initiatives.

Our green team submitted a \$1000 grant proposal to build a solar powered chrome book charging station. On January 29th we received word that the grant proposal has been funded for the entire \$1000.

The Environmental Club on behalf of the green team respectfully asks that the Homer Board of Education accept this donation/grant from the Wild Center.
